Historic Resources Survey - Final Public Meeting

In 2023, the Village of Manchester contracted with The Landmark Society of Western New York to conduct a historic resources survey within the village limits. The purpose of the survey was to identify and document properties of historic significance and determine whether there are National Register eligible properties or districts within the village. The survey has been completed and we are excited to share the results and recommendations with the community!

Join the Village of Manchester and The Landmark Society to learn more about the survey results and potential next steps and benefits for your community.
